District Ag. Gives Information

Purpose and Operation Of T.B. Restricted Area

On Saturday, Oct. 7, a meeting was held in the Legion Clubrooms, which was attended by members of the different Women's Institute groups of the Vulcan municipality, Farm Organizations, the Municipal District and the Chamber of Commerce. The meeting was sponsored by the Chamber of Commerce to bring together those who intend to circulate petitions with respect to making the Vulcan Municipality into a T.B. Restricted Area. The fact that a number of organizations were well represented, pointed to the friendly spirit of co-operation that prevailed.

Those who were unable to attend the meeting may find the following information concerning T.B. Restricted areas, interesting.

The purpose of the T.B. Restricted Area is first, to safeguard public health. Bovine Tuberculosis is can be passed on to humans, especially children, and often localizes in the glands or develops into T.B. of the bone.

Diseased animals are not profitable and no one wants them around, if their condition is known.

At the present time, Canada is exporting a large number of feeder cattle and cattle for immediate slaughter to the U.S.A. If this market should suddenly be closed to Canadian cattle, we can easily imagine what would happen to the price of beef. There is just a possibility of this taking place unless T.B. Restricted Areas are formed. Last year the regulations were changed so that only breeding stock from T.B. Restricted Areas or Accredited Herds could cross the line. There is apparently a group of people in the United States who want to have the same regulations enforced for all Canadian cattle imported.

The incidence of T.B. among cattle in Alberta is very low. Of over 250,000 head tested, only 16 reactors per 10,000 head have been found. However, if a reactor is found in a herd, the owner is paid compensation at the rate of a maximum payment of \$100.00 for a purebred, and a maximum of \$40.00 for a grade, plus the carcass value in each case.

Reactors are sent to a packing plant, and slaughtered under supervision of veterinary inspectors, who inspect the carcass and pass it as being fit or unfit for human consumption.

Alberta is not as far along as the other provinces with T.B. testing of cattle, as only about 20 per cent of our cattle are presently tested. Testing in the other provinces ranges from 60 to 85 per cent of the cattle population.

Testing is carried on by the Dominion Government Health of Animals Division Veterinarians. There is no charge for the test. If less than two-tenths of one percent of the cattle in a given area are reactors, the area would very likely be accredited for a period of six years, and if at the end of this period, the incidence of T.B. is not found to be increasing the area may be accredited for an additional three years.

Present plans call for the making of practically the whole of Alberta a T.B. Restricted Area. This will eliminate any difficulties that otherwise would have to be contended with, when moving cattle from one area to another.

School News

Grades 1, 2, 3 and 4 moved to the new school Wednesday morning. Grade 1 occupies the yellow room, grade 2, the blue room, grade 3, the peach; and grade 4, the green room.

There will be an official opening at some later date when everyone will have the opportunity of seeing the new addition.

Jean Ann Matlock and Leslie Lucas, who have been patients in the local hospital, are now back at school.

The stucco school will be used in future for Home Economics and Shop, by Miss M. Seymour and Mr. T. Humphrey.

The Weather

Cool weather has prevailed this week, with about an inch of wet snow falling Tuesday night. Harvesting is not yet fully completed.

Name Committees For Proposed Graveling Bee

Although the date for Vulcan's "graveling bee" has not yet been set and awaits a time when the municipality's gravel crusher will be available, plans for furthering the bee were made at a director's meeting of the Board of Trade held recently.

J. M. Jamison and M. R. Morrison were appointed a committee to arrange for trucks to do the hauling and Keith Elder and Stan Scales will be in charge of the collection work. When the bee is completed, a supper will be tendered all those who took part in the work.

The committee arranging for the trucks are very anxious that all those with available trucks call either Mr. Jamison or Mr. Morrison and indicate a willingness to donate a day's hauling. It is intended to supply gas and oil for those donating trucks and dinner for the drivers. Arrangements have been made to facilitate the unloading of farm trucks without dump boxes, so that this will require no effort on the part of the drivers.

The executive of the Board of Trade have devoted considerable time and effort to arranging this graveling bee, and it is hoped they will receive the whole-hearted co-operation of townsmen and farmers.

Other business included the appointing of Roy Walker and A. G. Saxby to review the provincial government's Industrial Survey Report on Vulcan and make their recommendations for amendments or additions to the report.

President Ross Walker was chairman of the meeting and G. A. Sales acted as secretary.

Peter Storey Dies At Guelph

He is survived by one sister, Mrs. Dowling, who spent many years with Mr. Storey when he farmed near Vulcan and who now resides at Bolton, Ont.

Master Farm Family Awards For 1950 Are Announced

The 1950 group of Master Farm Family Award winners were announced on Monday by Hon. David Ure, provincial minister of agriculture, with the Emil Cammaert family of Rockyford named as Southern Alberta's Master Farm Family for this year.

Other winners are the Charles J. Kallal family of Tofield, the Roy Ballhorn family of Westaskin, the E. S. Parson family of Boyle and the Fred Labrecque family of Spirit River.

Each master farm family receives an award of \$1,000, an engraved plaque and a name plate for the farm entrance.

Objectives of the master farm family program are to provide a practical demonstration of farm and family progress and approved farm practices which bring success. This is to emphasize the advantages of the farming vocation and the wholesomeness and dignity of rural life. It is designed also to show the farm youth the high ideals of agriculture and the opportunities in rural life.

Interest in the program throughout rural Alberta was very keen and 48 families were nominated. Basic requirements of candidates for the master farm family awards are: Canadian citizenship, actual operation of a farm either as an owner or leasee for 20 consecutive years (including military service), nomination by at least three neighbors and personal acceptance of the nomination. The required years of consecutive farming was boosted to 20 this year compared with 10

Canada's First Mobile Bank

Canada's first mobile bank went into action for the first time at the International Plowing Match at Alliston, Ont. in the early days of banking in Canada, managers

often loaded a cash box onto a wagon and set up shop in a wheat field. Today, The Commerce goes to its customers with a fully-equipped banking unit. This travelling "branch" has a manager's office, vault, tellers' cages and counters for the customers.

Regular Meeting Reid Hill Institute

The regular meeting of the Reid Hill W.I. was held at the home of Mrs. Agnes McKay, Thursday, Oct. 12th, with twelve members in attendance. Roll Call was answered by the showing of a new apron.

Mrs. McRoberts reported that the parcel for the "adopted" family was now ready for mailing and she and Mrs. C. McIntyre agreed to pack and send the parcel to the Rest Haven Home.

Mrs. Walker reported that plans are now complete for the canvass with the petition for the prevention of T.B. and Bang's Disease.

The sum of \$5.00 was voted to the Salvation Army's Annual Appeal.

The contest arranged by Mrs. McRoberts was won by Mrs. Walker, who also was the lucky winner of the tea draw.

A dainty lunch was served by the hostess assisted by Mrs. Carson McKay.

Exhibitors of the best ten seed samples were named in the following order: Norman Jacobson, Mel Duham, Glen Graham, Carson Love, Keith Healey, Brian Todd, Hartley McDonald, Ralph Walker, Wesley Fulton, Owen Fulton, Ralph Richardson. The samples were predominantly of Thatcher wheat and weighed 63 to 66 lbs. per bushel.

Mr. Bell instructed the club members on preparing of seed samples for exhibition and suggested that some of their better samples be entered in the larger fairs.

A forage seed identification contest was conducted by Mr. Wagner. Results of the grain judging contest, conducted by Mr. Michael, will be announced later.

Selection of the award winners is conducted on a district, then a regional basis with the selectees finally being confirmed by a Provincial committee. Both technical and practical agriculture and home economics are represented on all committees. The five honored families represent regions corresponding roughly to the five soil zones of Alberta.

A scoring system allots points for each of 87 factors of farm living and farm plant. The system is organized under four main headings, namely: the home and farmstead, operation and organization of the farm, family and community life, and management and business methods. Possible scores have been carefully worked out for each division according to its relative importance and the record of each candidate was measured on this detailed basis.

On behalf of the Provincial government, Mr. Ure expressed congratulations to the five master farm families for the outstanding records of achievement they have registered in their communities. The minister of agriculture congratulated too the 43 other candidates who were honored by being nominated by their neighbors.

M.D. Council Discusses Rat Menace; County Act

The Councillors of the Municipal District of Vulcan at their recent meeting were unanimous in their endorsement of the Department of Agriculture's campaign to keep Alberta free of rats. The Norway, or brown rat, has recently been declared a pest by the Minister of Agriculture as provided in the Agriculture Pests Act of the province. The policy of the Department of Agriculture is to take appropriate and effective measures to prevent the movement of rats into Alberta and to eradicate immediately any that may be found in the province. The Municipal District has, by By-Law, appointed the present Weed Inspector, Mr. C. H. Matlock, the official in charge of the campaign to exterminate this pest. An important part of the campaign is to educate the general public in identifying any rats and reporting them to the Municipal office or to Mr. Matlock. Because the rat is now present on the eastern border of the province, measures to exterminate it must be taken at once and everything done to keep Alberta free from this pest. The Councillors express the hope that every person will be active and interested in this work.

Mr. Allan McLean, Councillor for Division 1, was appointed Deputy Reeve for the ensuing six months.

A resolution approving the cost of the Vulcan Rural Electrification lines was approved.

Mr. A. W. Hodges, Architect, of Calgary, was present at the meeting and discussed with the Council plans for the Convalescent Nursing Home to be built by the Municipal District in Vulcan.

Alberta's new County Act was discussed by the Council and the unanimous opinion was that the Council approve the legislation in principle. It was felt that this legislation was a progressive step and that the Vulcan district would be an ideal territory for a County. A motion was passed that the Minister of Municipal Affairs be asked to set up a County with Vulcan as its centre, as soon as it can be arranged.

To Canvass For T.B. Free Area

Mrs. H. I. Montgomery was hostess for the Good Deeds W. I. meeting of Oct. 12, when fourteen members and two visitors were present. Mrs. Robert Irwin acted as secretary in the absence of Mrs. Dale Campbell.

Business included the appointing of three members to canvass the district west of Vulcan to get petitions signed by the farmers for the establishment of a T.B. and Bang's Disease Free Area here. Mrs. Etta Clark gave a short report on the Rest Room, which would be in charge of Mrs. L. Jackson in future, with Miss Bennett taking care of the library.

Miss Viva Dennison gave a poetry reading entitled "Future" and Mrs. McFasters was in charge of a contest which called for the making of corsages from several kinds of candies, toothpicks and white paper doilies. Mrs. E. E. Andrews acted as judge and Mrs. Clarence Brown won the prize.

Roll call, "A Thumb Sketch of Your Life," proved quite interesting. A delicious lunch was served by the hostess, assisted by Mrs. C. L. Dennison and Mrs. McFasters.

Election of officers will take place at the November meeting, which will be held at the home of Mrs. Merle Smith.

To Prepare History Of Thigh Hill

Mrs. Lawrence Orchard was hostess to the October meeting of the Thigh Hill W.I. when 18 members and four visitors were present.

Roll Call was "Women in the News", and was highly interesting.

A paper on Rheumatic Fever, prepared and delivered by Mrs. Howard Burrell, proved most informative and was greatly appreciated.

A motion was made to provide each member with an Institute Handbook. The project for the coming year will be to prepare a

Elect Doug Smith New President Home and School

A record crowd of parents and teachers attended the regular meeting of the Vulcan Home and School Association held in the Legion Hall Tuesday evening.

Main business of the meeting was the election of officers for the new term, with results as follows:

Doug Smith, president; Jim Shortt, vice-president; Mrs. H. Bride, secretary-treasurer; Mrs. A. G. Saxby, lunch convener; Mrs. N. K. Budd, program convener; Mrs. R. Stein, membership convener; Mrs. J. P. O'Connell, advertising convener.

Business dealt with included arrangements for the "Fall Round-up," a one-day convention to be held at Nanton, on Nov. 18. The town by-law concerning the curfew was discussed and information will be requested from the town council with a view to having the curfew more strictly enforced.

A donation of \$75.00 was voted for furnishing the teachers' room in the new school and a representative of the Students Union was invited to meet with the HS A to discuss the purchase of gymnasium equipment.

Preceding the business session, a program was presented by some of the school children and teachers. The following numbers were very well received:

Chorus by Grade 3, accompanied by Miss H. Cameron. Flutophone selections by boys and girls, with Mr. Yoemans and Warden Budd. Solo by Jay Scott, "Home on the Range," accompanied by Bob Schmidt on the flutophone. Solo tap dance by Elaine Bride and tap dance by Louise Loucks and Glenna Joiner. Barber Shop Quartet number by teachers H. Ulmer, E. Kumlin, C. Yoemans and K. McPherson.

Lunch was served by Mrs. H. Roebuck, Mrs. C. Northcott and Mrs. C. J. Robinson.

The next meeting will be held on Tuesday, Nov. 21.

Honored On Golden Anniversary

Mr. and Mrs. E. A. Woodman, who celebrated their 50th wedding anniversary on Tuesday, Oct. 10, were the guests of honor that evening at a party held at the home of Mr. and Mrs. Alva Fulton.

Members of the immediate family and their children were present for the occasion, which also marked Mr. Woodman's 79th birthday and the birthday of his grandson, Douglas, son of Mr. and Mrs. Donald Woodman.

A three-tiered wedding cake centred the table and a buffet supper was enjoyed by the thirty relatives present.

Gifts from their family were presented to the bride and groom of fifty years ago and photographs of the occasion were taken by A. G. Saxby.

The Advocate joins their many friends in wishing Mr. and Mrs. Woodman many more years of happy married life.

Tweedsmuir History of the Thigh Hill District

The sum of \$10.00 was voted to the Salvation Army appeal.

The tea draw was won by Mrs. Opal Drummond, while the delicious chili con carne lunch served was most appropriate owing to the cold day, and was much enjoyed.

Chain stores in a shopping district help rather than harm the adjacent independent stores by attracting more shoppers.

A farmer's barn burned down and the agent for the insurance company, explaining the policy that covered the structure, told him that his firm would build another barn of similar size instead of paying the claim in cash. The farmer was furious. "If that's the way your company does business," he exploded, "you can just cancel the insurance policy on my wife."

Memorial Park

This past summer, visitors to the Elks Memorial Park have been amazed at the beauty of this spot, which three years ago was the site of the old tennis courts.

Shrubs, hedges and trees are now well established and their beauty, and that of the many flower beds and perennial borders, was enhanced this year by pleasant green lawns. The rustic stone wall on the south side, the new entrance to the Memorial Swimming Pool, adjoining the park, and the lovely wrought iron gates supported by pillars of rustic stone construction which form the entrance to the park itself add greatly to the overall appearance of the project. Red shale walks make every part of the park accessible to visitors.

With the beautifying of the swimming pool surroundings now an integral part of the Memorial Park project and plans already laid for a bowling green on the south side of the pool, the beauty of this area will be even greater.

The Elks are to be congratulated on such a worthwhile project, which brings pleasure to all. Guiding the park project and responsible for the planning and a great deal of the actual work are Elks G. C. Collier, Bruce Roe and Jack Marshall. Gardener Luke Ohlbeiser, too, has taken a personal pride in the park that is reflected in its beauty.

Purchasing of flowers, shrubs, trees and upkeep and improvements have made heavy expenditures necessary these past three years and the necessary funds these past three years and the necessary funds have been raised through the annual fall carnival and other activities of the Elks Lodge.

This weekend the Elks Carnival will again be in full swing at the arena. Vulcan and district residents, through their attendance at the carnival or by direct contribution to the Memorial Park Committee, can ensure the proper upkeep and continued improvement of the Memorial Park.

The Pioneers

(From Stettler Independent)

A pioneer is not necessarily a settler who came early to Alberta, but he is a man who has the pioneer tradition. He has sprung from pioneer stock, perhaps in Ontario or Michigan or Illinois or Scandinavia. A lot of men came to this country but they moved because they were not real pioneers.

In times of prosperity, such as we enjoy at present, people flock into the province, take odd jobs at good wages and then move to some other province or to the States when they get enough money to travel around.

But when hard times arrive, they are not to be seen. The transient population always gets out of a country when times get difficult.

But the pioneers don't move out. They and their fathers have been through the same thing before. They know what hard times are and they know what good times are and they take the good with the bad and the bad with the good and even them up.

Hence the foundation of the province is our pioneer stock, both native and imported, the men and women who keep working on their farms and in their business places and make a life career of their occupations and furnish the schools and the hospitals; and the municipal districts and the municipalities and the government itself with the funds that are necessary to keep the country going. Only those who have been trained in the pioneer tradition are welcome to Alberta because they will send their roots into the soil like trees planted by the rivers of waters. All others will move on to pastures new.

What Ever Happened To . . .

Every once in a while we wonder about the news stories which held the front pages a few days ago, a few months ago, a year ago or five years ago. For instance what happened to the Gazelle-Boy?

Was the whole thing a hoax or was the public just bored with the story so newshounds let it drop? We are curious about whether he got his hair cut, his manners polished, and turned into a small city Tazan in Tip Top Tailoring or did he get tired of civilization as he found it and go back to the desert.

What happened to all the people who decided to walk a wheelbarrow, or ride a horse or pedal a bike all the way from Vancouver to Halifax via New Orleans? Did they give up two hundred miles east of

The Spread in Grades

An effort is being made by the grain trade to make it appear that the Wheat Pools are responsible in some degree for the spread in prices between the grades of wheat put into effect by the Wheat Board this year. No member of the Wheat Board ever discussed with the Alberta Wheat Pool the question of spreads between the grades.

THE fixing of the spreads between the grades is the responsibility of the Wheat Board. That Board has made it clear, however, that when the final payment is made, all the monies received for each grade will be paid out to the producers.

Albert Rhodes
His many old time friends and former neighbors here were shocked to learn of the tragic death of Mr. Albert Rhodes, aged 62.

Tons of rock hurtling down from the mine roof, Wednesday, crushed to death the president of the Bellevue Mine Union in a sudden accident at the West Canadian Collieries in Bellevue. His mine "partner", John Hill, managed to escape injury in the underground rock fall. The accident occurred shortly after nine o'clock in the morning and workers dug the body out by one o'clock.

Mr. Rhodes was to have retired next June and looked forward to a long vacation visiting the different members of his family. He was an avid sport fan.

Born in Derbyshire, England, Mr. Rhodes came to Canada in 1884. He farmed in the Champion district for many years, later taking up mining in B.C.

He is survived by his widow, Frances, in Bellevue; five daughters, Mrs. Harold Nash of Lethbridge, Mrs. Cliff Porter of Victoria, B.C., Mrs. Rod McKay of San Francisco, Cal., Mrs. Charles Walsh of New Westminster, B.C., Miss Hazel Rhodes of Kelowna, B.C.; two sons, Kenneth of Edmonton and Albert of Prince George B.C.

Also surviving are four brothers, Herbert of Portland, Ore.; Ernest of Hillcrest, B.C.; and William and George of Calgary; two sisters, Mrs. Edward Brown of Vancouver and Mrs. Sara Byland of Oskis, Minn.

Cecil, Walter, Glen, Leonard and Clarence Rhodes of Champion are nephews.

Funeral services were held in the Bellevue United Church, Sunday.

John F. Harper
A pioneer of the Champion and Stavelly districts, John F. Harper passed away in the Holy Cross Hospital, Calgary, Saturday afternoon Oct. 14.

Born at Tunnell Hill, Illinois, April 12, 1871, he moved when a small child, with his family to Pa'ouse, Washington. They were among the first settlers in that State. In 1905 Mr. Harper came to

Alberta and homesteaded in the Stavelly district, moving to Champion in 1917, where he had since farmed, spending the past few winters in Calgary. He was a member of the Church of Christ.

Surviving are his widow, Ella; two sons, George of High River and Orville of Nakusp, B.C.; one daughter, Mrs. Harry Lusk of Lethbridge; four grandchildren and two great grandchildren.

Funeral services were conducted Tuesday at 2 p.m. from Park Memorial Chapel in Calgary with interment in Queen's Park Cemetery, under the direction of McInnes and Holloway.

ELKS MEMORIAL PARK

On behalf of the Elks Lodge and the Elks Park Committee we would like, through the medium of the Advocate, to express our thanks to the following:

To Major C. R. Robson for the Wrought Iron Gates at the entrance. When the pillars are capped and finished it will be a fitting entrance to a beautiful park.

To the Town Council for their donation of free water for the watering of the lawns and to the Lions Club for water for the shrubbery. This is greatly appreciated and shows what can be done when we have water at the right time—it truly "makes the desert blossom as the rose."

To Mr. John Mitchell who for two years now has supplied the bedding plants at cost price.

To the Elks who have donated their time and trucks for the different hauling that had to be done.

To our gardener, Mr. L. B. Ohlheimer, for his co-operation at all times. Luke is keenly interested in the Park, as his entries that won honors at the Country Fair bear out.

To the Public, who have visited the Park and have personally expressed their delight in its beauty, we say thank you. It is these expressions of delight that are encouraging both to the gardener and the Committee and makes it all worth-while.

Next year it is our intention to put in a Lawn Bowling Green south of the Swimming Pool, and our thanks are tendered to Mr. Gibson of the Survey Staff of the Provincial Government, who surveyed it, and the Vulcan Municipal Council, who had the plot graded.

This year we spent over \$1,500.00 on the Park from funds raised by the carnival and the July 1st celebration. This fund is now exhausted and we again look to the public for their support at our carnival this weekend.

Next year the whole length of the wall will be planted to perennials, and shrubbery planted on the south side of the pool entrance.

A Park is a place that you cannot just plant and leave. Money has to be spent and time given if it is to be kept going each year.

In anticipation of your support, either by your attendance at the carnival or by contribution, we again say thank you.

On behalf of the Elks Lodge and Park Committee.

G. C. COLLIER, Secretary Parks Committee.

Out Of This World

Chickens laying their eggs on the bottom of the ocean would be well, unbelievable. But these s.lvery grunion, a small fish of the same family, flop out of the ocean up to the beaches of southern California, to lay their eggs in the sand and then flop out to sea again. It's been proved with actual color photographs in "Dust or Destiny", new scientific film produced by Moody Bible Institute. Here, the female grunion digs in to the sand to deposit her eggs.

"Dust or Destiny" will be showing at the Evangelical Free Church in Champion on Saturday, Oct. 21 at 8 p.m., and at the Vulcan Theatre on Sunday, Oct. 22, at 8:45 p.m. Along with this film will be shown "Voice of the Deep" an interesting film of underwater life. The local showing is sponsored by the Vulcan Ministerial Association.

BUILD HUGE SURPLUS

IN CAR ACCIDENT FUND

Wider benefits to motorists from the unsatisfied judgment fund set up under the Automobile Accident Indemnity Act are expected to be discussed by the Alberta Motor Association when it holds its annual meeting in Calgary, Nov. 18.

The association last year urged the provincial government to extend the benefits provided under this legislation.

The A.M.A. also is expected to discuss the announcement that Alberta motorists contributed \$219,572 to the fund in the six months ended Sept. 30, last. During the same period, payments from the fund amounted to \$117,933, of which \$14,289 was for hospital and medical expenses for persons injured in motor vehicle accidents, \$13,784 for miscellaneous payments and the balance of \$89,860 in damages awarded plaintiffs obtaining judgments.

During recent years, a large surplus has been accumulated in this fund and this already has been increased by \$100,000 this year.

Some time ago, provincial authorities said \$150,000 had been earmarked for safety education programs and also the inauguration of tests for those making their first applications for drivers' licenses.
